IMPORTANT: COVID Vaccine “Safe and Effective” Narrative Collapses on Camera

This is the Senate hearing they never wanted you to see.

*This is an important article focussing on the Senate Hearings chaired by **Senator Ron Johnson** pertaining to **“Covid Vaccine Injuries”***

Introductory Comment

What should be underscored is that the Senate hearings confirm what was known to the FDA, the CDC and the NHS pertaining to the incidence of Covid-19 mrNA “vaccine” mortality and adverse events from the very outset in early 2021.

The evidence of mortality and adverse events resulting from vaccine inoculation both present (official data) and future (e.g. undetected microscopic blood clots) is overwhelming.

A confidential Pfizer report (declassified under Freedom of Information in October 2021) was revealed to official governmental entities (FDA, CDC, and NHS) in early 2021. This report which emanated from the Horse’s Mouth confirms unequivocally that Pfizer’s mRNA jab was a “killer vaccine”.

In a twisted irony, the data pertaining to adverse events and mortality revealed in this controversial “insider report” refuted the official vaccine narrative peddled by the governments and the WHO. It also confirmed the analysis of numerous outspoken medical doctors and scientists who from the outset revealed the devastating consequences of the mRNA “vaccine”.

***The* Pfizer Confidential report was a bombshell.** The vaccine was launched in mid-December 2020. By the end of February 2021, “**Pfizer had already received more than 1,200 reports of deaths allegedly caused by the vaccine** and **tens of thousands of reported adverse events**, including 23 cases of spontaneous abortions out of 270 pregnancies and more than 2,000 reports of cardiac disorders.”

The data from mid-December 2020 to the end of February 2021 unequivocally confirmed "Manslaughter". Based on the evidence, Pfizer as well as the CDC, FDA and NHS had the **responsibility to cancel and withdraw the "vaccine".**

Pfizer's Worldwide marketing of the Covid-19 Vaccine beyond February 28th, 2021, is no longer an "Act of Manslaughter". From a legal standpoint it is an "Act of Murder" applied Worldwide to a target population of 8 billion people. Sofar more than 70 percent of the World's population have been Covid-19 vaccinated.

Pfizer was fully aware that the mRNA vaccine –which it continues to market Worldwide– would result in a wave of mortality and adverse events.

It was also a **Mea Culpa on the part of corrupt national governments Worldwide** which were routinely threatened and/or bribed by Big Pharma.

Senator Ron Johnson refers to deaths recorded by VAERS in 2021, which were known and documented.

Official VAERS figures for Vaccine Deaths. Official Data were released for 2021.

The graph below: **“All Deaths reported to Vaers by Year”** starting in 1990. (e.g. reported by the Victim’s family to VAERS).

These are official figures, deaths attributable to the Vaccine. Only a **very small percentage of vaccine deaths is reported.** Nonetheless the graph below indicates **more than 19,000 Vaccine related deaths in 2021 in the U.S.**

Neither the media nor the U.S government have informed the public.

What can be observed is that the number of **reported vaccine deaths** has increased dramatically in the course of 2021 corresponding to the first year of the Covid vaccine which was launched in the U.S. in mid December 2020.

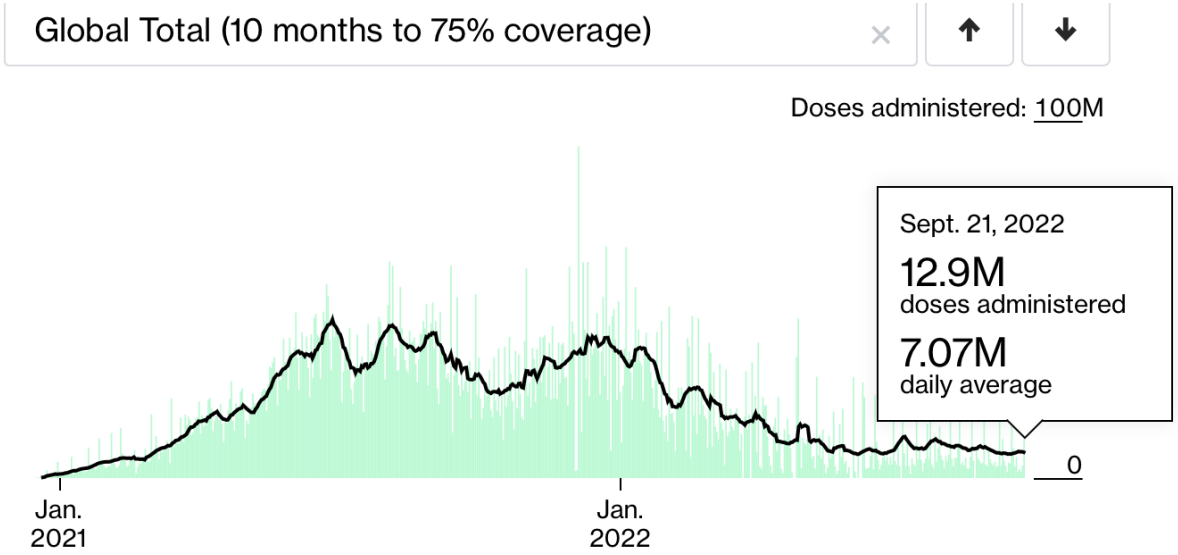
The Worldwide Impacts of the Covid “Vaccine”

The Global Impacts of the mrNA Vaccine are beyond description. More than 14 billion doses of Covid vaccine were administered Worldwide, 1.75 doses per person for a World population of 8 billion.

.



Note: *Coverage may exceed 100% in some places, as shots may be administered to non-residents. The "daily rate estimate" is a seven-day trailing average; interpolation is used for jurisdictions with infrequent updates. Data are from Bloomberg's Covid-19 Vaccine Tracker.

.

Had the media truthfully reported on the nature of the Covid vaccine and its devastating impacts, millions of lives would have been saved.

From the outset, No meaningful attempt has been made by national governments to call for the withdrawal of the killer vaccine.

It is worth noting that from the very outset **Doctors for Covid Ethics** issued a broad statement in July 2021 based on the data of EudraVigilance, (EU, EEA, Switzerland), MHRA (UK) and VAERS (USA) calling for immediate cancellation:

> "more deaths and injuries from the COVID-!9 "vaccine" roll-out than from all previous vaccines combined since records began."
>
> **The signal of harm is now indisputably overwhelming, and, in line with universally accepted ethical standards for clinical trials, Doctors for Covid Ethics demands that the COVID-19 "vaccination" programme be halted immediately worldwide.**
>
> Continuation of the programme, in the full knowledge of ongoing serious harm and death to both adults and children, constitutes Crimes Against Humanity/Genocide, for which those found to be responsible or complicit will ultimately be held personally liable."

Let us support Senator Ron Johnson:

Hopefully this initiative by **Senator Johnson** coupled with the important testimony of **Dr. Peter McCullough,** followed by the incisive analysis of **Dr. Jordan Vaughn** and **Dr. James Thorp** (see below) will lead to what has been demanded by thousands of scientists

and medical doctors from the very outset.

THE UNCONDITIONAL CANCELLATION AND WITHDRAWAL of the Covid Vaccine, nationally and internationally.

Senator Ron Johnson's Explosive Senate Hearing on Covid Vaccine Injuries

*The "safe and effective" narrative collapsed on camera during **Senator Ron Johnson's** explosive Senate hearing on COVID-19 vaccine injuries Wednesday afternoon.*

Senator Ron Johnson brought the receipts, exposing how the Biden administration DELIBERATELY hid vaccine harms from the public.

Then **Dr. James Thorp** (OB-GYN) revealed miscarriage data so disturbing, it left the room silent.

This is the Senate hearing they never wanted you to see. I turned three hours of footage into a five-minute read.

Senator Ron Johnson opened the hearing with a bombshell: the Biden administration knew about deadly heart risks tied to the COVID shots, and deliberately kept it from the public.

Johnson released newly subpoenaed records exposing a detailed timeline of what officials knew and when. While Pfizer and Moderna received insider updates, doctors and citizens who raised concerns were silenced.

In February 2021, Israeli health officials warned the CDC of "large reports of myocarditis, particularly in young people" following Pfizer injections, just two and a half months after the vaccine received emergency use authorization.

By April, the CDC was already reviewing myocarditis data from Israel and the Department of Defense. But instead of alerting the public, they stayed quiet.

By the end of that month, VAERS had recorded 2,926 deaths, nearly half of which occurred within three days of injection. "Somebody ought to be looking at it," Johnson said.

In May, the CDC considered issuing a formal health alert—but scrapped it. They replaced it with watered-down guidance that removed a key warning for doctors to restrict physical activity in myocarditis patients.

Francis Collins, then director of the NIH, brushed it all off. "Senator, people die," he told Johnson.

In just six months, the toll was staggering: 384,270 reports of adverse events, 4,812 deaths, and 1,736 of those occurred within just 48 hours of injection.

Dr. Peter McCullough then took the floor and upended the narrative that vaccine-induced myocarditis is "rare."

Before COVID, McCullough had seen just two myocarditis cases in his entire career. After the rollout, everything changed.

He says he's now "examined thousands of patients with this problem."

> "There's 1,065 papers in the peer-reviewed literature on COVID vaccine myocarditis," he explained, pointing to a 2021 case published in the New England Journal of Medicine. A 42-year-old man developed vaccine-induced myocarditis. "The infection is ruled out," McCullough said. "It's the vaccine." Three days after his Moderna shot, the man was dead.

McCullough cited a shocking case from Korea—a young man who died within eight hours of hospitalization after a Pfizer shot. His heart had been, in McCullough's words, "fried with inflammation."

Then came a case from Connecticut: two teenage boys, 16 and 17, died in their sleep just days after Pfizer. Their parents found them unresponsive.

> "These cases… should have gotten everyone's attention," McCullough said. "We should never have someone die after taking a vaccine that's directly caused to the vaccine."

.

Alabama-based physician **Dr. Jordan Vaughn** followed up with a chilling estimate—up to 15 million Americans may be suffering from long COVID or COVID vaccine injuries.

He now treats teenagers who can't stand up and previously healthy adults who are suffering strokes with no clear cause.

According to Vaughn, the spike protein's S1 subunit is far from harmless. "It triggers inflammation, it disrupts endothelial barriers, it induces fibrin resistant to breakdown, and it promotes a lot of amyloid aggregates," he said.

These effects impair oxygen delivery, damage blood vessels, and trigger a wave of symptoms—racing heart, brain fog, shortness of breath, and post-exertional crashes.

In his clinic, Vaughn uses immunofluorescent microscopy to detect the spike protein's damage, showing up in patients who were once thriving.

He warned that the mRNA injections led to uncontrolled spike protein production, which spread throughout the body, reaching the heart, brain, ovaries, and testes.

Regulators claimed the vaccine stayed in the arm. That was a lie. A Yale study now shows some people are still producing spike protein [more than 700 days after their last injection].

We didn’t just inject people. We turned them into spike protein factories.

OB-GYN Dr. **James Thorp** delivered one of the most haunting moments of the hearing.

He said the COVID shots "**MIRRORED**" the effects of chemical abortion drugs—and the government knew what it was doing.

Dr. Thorp pointed to the now-infamous Shimabukuro study published in the New England Journal of Medicine, which claimed a 12.6% miscarriage rate following COVID vaccination.

But when you isolate the data for women vaccinated in the first trimester, the miscarriage rate rises to 82%, Dr. Thorp said. This 82% claim remains a topic of debate within the scientific community.

If true, "**This figure mirrors the effects of chemical abort drugs**," Dr. Thorp lamented.

He added, “Recently, animal studies revealed the mRNA COVID vaccine causes the destruction of 60 PERCENT of the ovarian reserve in rats.”

If that effect translates to humans, it could be a catastrophic blow to fertility and the future of entire generations.

Dr. Thorp said pregnant women were deliberately targeted, and their unborn children paid the price.

> “This must stop now,” he said.

Attorney Aaron Siri then delivered a little-known history lesson on vaccine liability.

> “For every product on the market, you can SUE the manufacturer for harm,” Siri said. “There’s only ONE product in America you CANNOT sue the manufacturer to claim it could have been made safer—and that’s VACCINES.”

He explained how the 1986 National Childhood Vaccine Injury Act gave pharmaceutical companies sweeping immunity, not just for three vaccines, but for every new childhood shot added to the CDC schedule.

The result? A schedule that exploded from 3 shots to 29 in the first year of life, with zero accountability.

> “They don’t have the financial incentive to make them safer,” Siri said. “In fact, they have the disincentive.”

Senator Ron Johnson confronted Hawaii **Gov. Josh Green**, who was defending the COVID jabs at the hearing.

> “**I could fill this room with photos of people who are DEAD because of the COVID injection**,” Johnson said. “I could fill the room,” he reiterated.

He made the comment after calling out how the vaccine-injured are still being ignored, gaslit, and denied care.

Johnson pointed to VAERS data showing 38,607 reported deaths after the shot, 9,228 of them within two days.

Multiply that by a conservative underreporting factor of 10, and the death toll climbs to **over 386,000**.

.

Dr. Peter McCullough delivered one of the most powerful moments of the hearing.

Senator Blumenthal had previously claimed the COVID vaccines "saved three million lives."

Dr. McCullough quickly dismantled that false narrative. He delivered a three-part reality check on what actually brought COVID deaths down:

1. Natural immunity did the heavy lifting.

2. Early treatment kept people out of hospitals.

3. The virus mutated into a milder form.

> "The vaccine cannot be falsely credited with saving millions of lives," McCullough said.
>
> "We can't allow false drug advertising to be put up on a poster behind one of our public servants. We cannot accept that."

See this.

Sen. Ron Johnson delivered another crushing blow to the "safe and effective" narrative—this time with a devastating chart that exposed that lie.

The chart showed that one of the biggest spikes in COVID cases and deaths occurred ***AFTER*** the vaccine rollout began in December 2020.

By mid-2021, over half the U.S. was "fully vaccinated." But instead of improving, the numbers got worse.

If the vaccine had worked, cases and deaths would have dropped. They didn't—and this chart makes that impossible to ignore.

See this.

Sensing the narrative was slipping, Senator Richard Blumenthal (D-Connecticut) scrambled to defend public health officials.

He became visibly agitated at the suggestion that vaccine risks had been covered up.

> "I may be sounding a little bit like a lawyer, not a physician, but purposeful concealment, intentional hiding, is essentially undocumented by the evidence released by this report itself," Blumenthal said.

He brushed off the myocarditis concerns as "rare" and insisted that officials like Rochelle Walensky took "multiple steps" to warn the public.

So his message quietly shifted from "safe and effective" to "**We did our best with what we knew at the time**," a clear sign that the vaccine narrative is running out of ground to stand on.

See this.

Vaccine-injured physician **Dr. Joel Wallskog** captured the pain of the vaccine-injured better than anyone.

> "If I could describe one word that I think all, if not most, vaccine-injured will say… it's **ABANDONMENT**."

He explained how people like him have been attacked from both sides.

> "The right says we're stupid… the left calls us anti-vaxxers, which is one of the most ignorant things to say."

He reminded the room that he was injured because he got vaccinated.

Dr. Wallskog and vaccine-injured associate Brianne Dressen met multiple times with FDA vaccine chief Dr. Peter Marks over two years.

> "We have been placated, we have been blown off," he said. "He thanks us, he says he'll get back to us… **he never does**."

Dr. Wallskog added that the idea that federal agencies are trying to help is "the farthest from the truth."

See this.

Dr. McCullough closed the hearing with a final truth bomb.

> "You've asked for us to cite evidence," Dr. McCullough began.

He pointed to three papers by Nathaniel Mead, a former National Institutes of Health writer sitting in the audience. Together, they contain nearly 1,000 references—and they all reach

the same conclusion:

> **“The risks of COVID-19 vaccination far outweigh any theoretical benefits.”**

Dr. McCullough then dismantled the narrative pushed by Gov. Josh Green and Sen. Richard Blumenthal, calling their claims that the vaccines saved lives and reduced the severity of disease as nothing more than “wishful thinking.”

> “I don’t want America to be fooled by this hearing today thinking that the vaccines saved lives—because they didn’t,” Dr. McCullough said.

See this.

The COVID vaccine narrative they sold to the public is collapsing right before our eyes.

The Worldwide Corona Crisis, Global Coup d'Etat Against Humanity

by Michel Chossudovsky

Michel Chossudovsky reviews in detail how this insidious project "destroys people's lives". He provides a comprehensive analysis of everything you need to know about the "pandemic" — from the medical dimensions to the economic and social repercussions, political underpinnings, and mental and psychological impacts.

"My objective as an author is to inform people worldwide and refute the official narrative which has been used as a justification to destabilize the economic and social fabric of entire countries, followed by the imposition of the "deadly" COVID-19 "vaccine". This crisis affects humanity in its entirety: almost 8 billion people. We stand in solidarity with our fellow human beings and our children worldwide. Truth is a powerful instrument."

Reviews

*This is an in-depth resource of great interest if it is the wider perspective you are motivated to understand a little better, the author is very knowledgeable about geopolitics and this comes out in the way Covid is contextualized. —***Dr. Mike Yeadon**

*In this war against humanity in which we find ourselves, in this singular, irregular and massive assault against liberty and the goodness of people, Chossudovsky's book is a rock upon which to sustain our fight. –***Dr. Emanuel Garcia**

In fifteen concise science-based chapters, Michel traces the false covid pandemic, explaining how a PCR test, producing up to 97% proven false positives, combined with a relentless 24/7 fear campaign, was able to create a worldwide panic-laden "plandemic"; that this plandemic would never have been possible without the infamous DNA-modifying Polymerase Chain Reaction test – which to this day is being pushed on a majority of innocent people who have no clue. His conclusions are evidenced by renown scientists. **—Peter Koenig**

*Professor Chossudovsky exposes the truth that "there is no causal relationship between the virus and economic variables." In other words, it was not COVID-19 but, rather, the deliberate implementation of the illogical, scientifically baseless lockdowns that caused the shutdown of the global economy. –***David Skripac**

A reading of Chossudovsky's book provides a comprehensive lesson in how there is a global coup d'état under way called "The Great Reset" that if not resisted and defeated by freedom

loving people everywhere will result in a dystopian future not yet imagined. Pass on this free gift from Professor Chossudovsky before it's too late. You will not find so much valuable information and analysis in one place. –**Edward Curtin**
